- Incentives can not exceed the project cost. There is no cap on the total incentive.
- The AC condenser rebate and HPHVAC rebate can not be combined.
- Equipment must be purchased and installed prior to submitting online
- Applications must be postmarked no later than 90 days from system installation date.
- This program has a limited budget. Applications will be accepted on a first come, first served basis, until funds are depleted.
- This program is for retrofit only. Funds cannot be used for new construction. •
- All energy efficient equipment must be installed at a single-family residence receiving electricity from Roseville Electric Utility and must be purchased at retail price. Products that have been resold, rebuilt, rented, leased, exchanged, won as a prize or have had new parts installed into existing products are not eligible for rebate.
